

GREEN COFFEE INNOVATION

# Cesar A. Ortez

Lot 157

After years of toiling away on the farm he purchased 20 years ago with the difficult growing conditions of a high elevation and cold microclimate, Cesar had no idea just how special his coffee was. Selling his coffee to a local broker and receiving a baseline price, Cesar was on the point of selling the entire farm when he found Expocamo S.A. and was told just what his coffee was worth.

La Cascada is named after a beautiful landmark that delivers a 30m cascade down the mountain to deliver clear water to the farm itself. This year, Cesar achieved his highest yield to date, and is excited to continue to extend his passion for coffee into the future based on long lasting relationships with those who appreciate his art for producing coffee with identity.

**The Cup: 86.2pts.**

Coffee blossom, vanilla, choc, dry mid body, lingering.
