

GREEN COFFEE INNOVATION

# El Rancho

Saúl San Miguel

The farm El Rancho is located in San Agustín, a town in southern Huila, Colombia, very close to Magdalena's lagoon which gives place to Colombia's most important river.

Huila's natural conditions give place to stunning coffees, the high altitude on the Colombian Andes creates a remarkable acidity in coffee.

## **The Cup: 86pts.**

Sugarcane, malic acidity, maltose, medium high body, smooth.
