

Denis Sabadieux

Lot 153

While the high altitude farming community of La Explosión produces relatively little coffee compared to the larger regions of Jinotega and Matagalpa, it is no less important to the inhabitants for whom coffee production represents the main source of income.

Dennis Sabadieux's farm "El Esfuerzo" is tiny compared to most with only 3 acres on which to grow his crop. To make the most of the land he has, Dennis has recently made the move to specialty coffee production and his efforts to improve quality have certainly been worth it! With continued success, Dennis plans to buy more land and increase his production.

The Cup: 87.4 pts.

Choc, floral, dry berry, clean, bold, peach.
